ABOUT US

Engineers Plus Pty Ltd provides civil engineering consultancy services to the government, development and mining sectors. Based on the Fraser Coast, Sunshine Coast and Brisbane, our team of experienced engineers allows us to draw upon a wide range of expertise and deliver tailor made project solutions.

OUR TEAM

Engineers Plus brings together a wide range of expertise across all engineering disciplines. Our Directors have extensive project experience and will personally manage your project ensuring design innovation, fit for purpose design and timely implementation.

- + Project Management
- + Investigation, Planning and Design
- + Contract Management

- + Urban Development
- + Structural
- + Marine
- + Transport
- + Water
- + Wastewater
- + Reuse
- + Stormwater
- + Flood Hydrology

- + Government
- + Development
- + Mining

Transport Infrastructure

- + Corridor Planning
- + Traffic Impact Assessment
- + Parking Assessment
- + Intersection Planning and Design
- + Roads and Streets
- + Pavement Design

Water & Wastewater

- + Water and Wastewater Strategic Planning
- + Water and Wastewater Planning Reports
- + Water Recycling, Reuse and Bio-Solids Management
- + Non Revenue Water Management
- + Pressure and Demand Management
- + Industrial Water Management
- + Bulk Water Transfer and Management
- + Water and Wastewater Treatment Plants
- + Dam and Water Storage
- + Dam Safety Inspections
- + Drought Management
- + Operation and Maintenance Solutions

Urban Development

- + Development Layout Development
- + Due Diligence Assessment
- + Engineering Reporting
- + Bulk Earthworks Design
- + Operational Works
- + Compliance
- + As Constructed

Stormwater

- + Flood Modelling and Hydrology
- + Stormwater Management Plans
- + Stormwater Reticulation Design
- + WSUD
- + Stormwater Detention
- + Culvert Design
- + Environmental including erosion and sediment control

Marine

- + Berthing and Mooring Design
- + Wharf and Pontoon Design
- + Boat Ramp Design
- + Inspections and Capacity Assessments

- + Domestic
- + Steel Framed Commercial and Industrial Buildings
- + Tilt-Up Panel Construction
- + High Rise Developments
- + Bridges
- + Earth Retaining Structures
- + Prestressed and Reinforced Reservoirs
- + Water and Wastewater Processing Structures
- + Industrial Slabs and Pavements
